M. Wright & Sons Ltd

Manufacturers of Elastic and Rigid Webbing and Made-up articles to suit customers requirements.

This company specialises in the manufacture of all types of webbing and in the production of complete articles from woven, dyed and rotproofed tapes, webbing and elasticated materials in widths ranging from 7 to 457mm.

The company has its own three mills (at Quorn, Derby and Caernarvon) and is an approved supplier to the British Ministry of Defence.

1937 Pattern equipment, normally dyed sulphur khaki or as required.

1944 Pattern equipment, normally dyed olive drab or other colours as required.

Ceremonial webbing, made of courlene or cotton with brass or chrome-plated fittings, is also available for parades and similar occasions.

Rucksacks, haversacks, holdalls and cases of all types, made of nylon fabrics. The cases are tailored to fit various equipments such as respirators, field radio manpacks, telephone units, binoculars and others. Many standard models are available; special models can be designed and made to order.

Flax webbing for man-carrying parachutes is also made, normally dyed mineral khaki.

Other products include general or special tarpaulins and tilt covers for troop-carrying and other vehicles and various types of mobile equipment, as well as canvas sleeping quarters made to specific requirements.
